DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1-18 have been allowed because the prior art of record does not disclose or suggest, either alone or combination, ^{an} ~~a~~ apparatus for metering and dispensing powdered product into containers, comprising a storage chamber for receiving the product, an incrementally rotating filler wheel having at least one metering opening, the filler wheel in a first position receiving product from the storage chamber and in a second position dispensing the received product to a container, and a closure element, which is disposed adjacent to the filler wheel ~~(2)~~ and can be connected to the filler wheel in such a way that upon a motion of the filler wheel into its replacement position, the closure element is moved into a position disposed below the storage chamber, to prevent the escape of product from the storage chamber.

Claims 19 and 20 have been allowed because the prior art of record does not disclose or suggest a method for replacing a filler wheel in an apparatus for metering and dispensing powdered product into containers, the method comprising the steps of moving the filler wheel from its operating position into a replacement position, and simultaneously moving a closure element connected to the filler wheel into the original operating position of the filler wheel in order to

close an outlet from a storage chamber for the product, and releasing the filler wheel from the closure element to enable a replacement of the filler wheel .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
